## EXPERIENCE

---

2/02/2019	<b>Wipro</b>
-	SCS
20/07/2019	Manual testing

## EDUCATION

---

2019	<b>Lovely professional University</b> B.Tech 8.19
2015	<b>Gulab Chand +2 high school</b> 10+2 70.6
2013	<b>TRR High school</b> 10 75.6

## PROJECTS

---

### Smart kitchen system (08/2018) to ( 02/2019)

I have created this project using Arduino, mq5, bluetooth,lm35, wifi module, ultrasonic sensors.it mainly detects gas leakage, temperature and humidity.sends collected data over internet to thingspeak.

### Student information system

I have created this project using ASP.NET.It has two user admin and student.admin can update,add,edit, delete student information and student can only view and update their personal details.

## TRAINING

---
